

GLASGOW, Mo.
THURSDAY, OCTOBER 25, 1849.

THE GREAT CONVENTION.

We give up a large portion of our space to-day, to the proceedings of the great Pacific Rail Road Convention held in St. Louis last week.

Call at Messrs. WILLIAMS & PUGH's, and examine their elegant stock of clothing.

See J. W. White's advertisements. He keeps a full assortment, and is always ready to supply the wants of customers or buy the produce of the farmer.

Eld. T. M. Allen will preach in this place Saturday and Sunday next.

Col. Benton was to have spoken at St. Charles on Monday last. His appointments extended from there to Troy, Bowling Green, New London, Hannibal, Palmyra, Monticello, and Alexandria, where he takes the back track and is to be at St. Genevieve the 5th of November, Perryville the 6th, and Jackson the 7th.

Col. Benton addressed a large concourse of people at St. Louis, on Thursday afternoon, after the adjournment of the convention.

In the evening Judge Birch and Hon. J. S. Green addressed the people, in reply to Col. Benton. This evening meeting was exceedingly rich—a kind of New York row, in which hisses, groans, yells and stamping, were the leading features. Judge Birch read an anonymous note received through the post office that day, warning him to leave the city in 24 hours, or he would be treated to a coat of tar and feathers. Oh the harmonious, loving democracy!

FROM CALIFORNIA.—Several letters have been received this week from San Francisco, dated about the 1st September, from persons who left here last spring. We can learn nothing definite as to their contents. Information comes to us through other sources, to the same date.

Information by the way of Boston gives some accounts of the sufferings of the overland emigrants. A public meeting had been held in San Francisco to render assistance.

The Pacific Weekly News of September 1st, says:

We learn that Gen. Persifer F. Smith has acted most promptly and nobly in making provision for the relief of emigrants crossing the Plains to California. Major Rucker, of the 1st dragoons, has been directed to make depots of provisions, horses, and men, at intervals of about 30 days distance from the Sacramento Valley, eastward, to extend to the desert beyond Salmon Trout river. Gen. Smith had placed at the command of Major Rucker the sum of \$10,000, besides a large amount of Government stores. This benevolent action has anticipated, as it also supersedes, the intention of the citizens of San Francisco.

A delegation of Caw Indians numbering about thirty, passed down on the Sarnak last night, on their way to Washington.

LEAD MINE IN HOWARD.—There has been lately discovered upon the land of Mr. Thomas G. Brown, six or eight miles east of this city, a mine of lead ore, which, from present appearances, bids fair to enrich its owner—the vein being quite thick and the yield about eighty per cent.

FAYETTE LAND OFFICE.
A telegraphic dispatch dated Louisville, Oct. 18th, says Samuel B. Todd is appointed Register of the Land Office at Fayette.

Maj. Gaines has accepted the appointment of Governor of Oregon.

LATEST FOREIGN NEWS.

The Paris "Journal des Debats" says:—We are glad to learn that England and France are most cordially united in the determination to support their ambassadors in the Russian envoy, finding his threats unavailing took abrupt departure from Constantinople, and the Russian Minister has closed all his diplomatic intercourse with the Porte. England and France, through their representatives, have prevailed with the Sultan in keeping him firm in his first resolution.

We are compelled to omit our commercial review this week, prices are about the same as last week; the river continues in fair boating condition; freights scarce; the *Romana* and *Julia* have left our river.

Why do physicians prescribe "Smith's Tonic Syrup, or Vegetable Ferri-fuge" for Chills and Fever? It is, first—because they know it is compounded from the most valuable substances found in the vegetable kingdom; they are aware of the process of extracting those substances is done with the strictest regard to their chemical and therapeutical properties; third—because the effect produced by the administration of this medicine is, of that certain but harmless character, which no other remedy is capable of producing, in restoring the patient to sound and permanent health.

The genuine may be had from the Agents—**Dr. O. Henderson, Glasgow, Dr. Snellson, Fayette, Malone & Garth, Huntsville.**
